1 C

1.1 Sum and Product

```csharp
using System;

public class Program
{
    public static void Main()
    {
        int sum = 1;
        for(int n=1; n<=4; n++){
            sum += 3+n;
            System.Console.WriteLine("Sum is {0}", sum);
        }

        int product = 1;
        for(int n=1; n<=4; n++){
            product *= 3*n;
            System.Console.WriteLine("Product is {0}", product);
        }
    }
}
```
